Stylish track with abundant possibilities

5100

cord-operated

for light, medium- and heavy-weight curtains

stylish & versatile

The Qurails 5100 track has the looks of a classic curtain pole combined with the comfort of a high-quality curtain rail. The curtains glide smoothly virtually without sound. Using the cord to open and close the curtains keeps the fabric clean. A very popular track that can be used in a wide variety of situations, such as private homes, but also in office buildings and in the care sector.

- The ideal track for lightweight and medium-heavy curtains.

- Easy to bend and exceptional quality.

- Can be forward or reverse bent in different radii.

- Compatible with the Qurails Flow System for regularly pleated curtains.

- The cords can run through enclosed channels to ensure they remain invisible and cannot tangle.

- Silent and smooth running, also round bends.

Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.
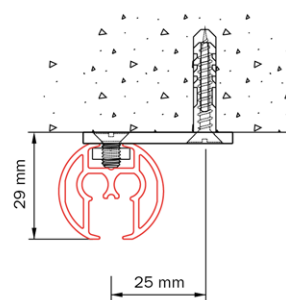

The Flow System can also be used with curved curtain tracks. For further information, see the Flow product data sheet.

Application example

Thanks to the projection of glider 6010, a heading can be created when using a rounded rail, without the rail tilting the top part of the curtain.

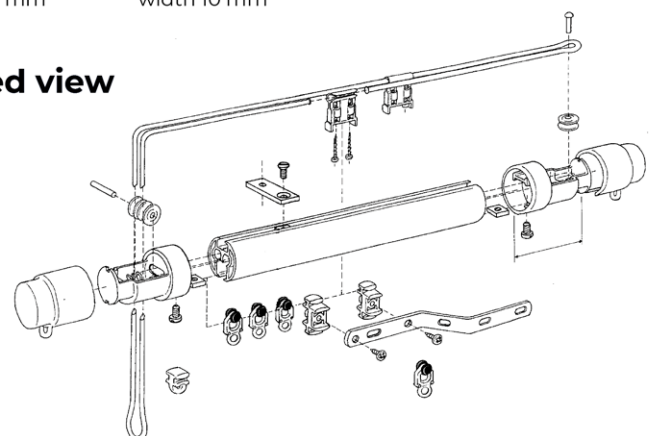

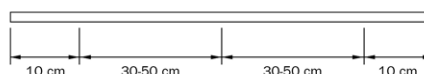

Heading with projection glider 6010 width 15 mm

Without heading with glider 4010 width 10 mm

Mounting guideline

10 cm   30-50 cm   30-50 cm   10 cm

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.
