6200

electrically operated

for light, medium- and heavy-weight curtains

Luxurious and sturdy track

The Qurails 6200 electrically operated system is ultra-quiet and can be used for comfort or as part of an assisted living environment. The system can be integrated with many home automation systems, where it can be used to provide simulated occupancy, or as part of a scene setting. The 6200 system has proved to be a hugely popular track, used in a wide variety of situations, including hotels and hospitality venues, private residential properties, care homes, commercial office buildings and the healthcare sector.

- The ideal track for light, medium- or heavy curtains.
- Easy to bend and of exceptional quality.
- Can be equipped with one of the three different G-Motion motor versions.
- Curtains can be single, pair or multiple stack.
- Two systems can be connected with a concealed centre pulley to allow asymmetric stacking.
- Unieke hoekpouli maakt het mogelijk om twee rails op 90 graden aan te sluiten.
- Unique corner pulley allows two rails to be connected at 90 degrees.
- The motor is concealed from view by the curtain.
- Can be bent in different radii (horizontally and vertically).
- Compatible with the Goelst Flow or Swing System, for regularly pleated curtains.
- Silent and smooth running, also around bends.

Standard colours

High quality, wear-resistant Akzo Nobel coating, highly colourfast, UV resistant. Other RAL colours & special coatings on request.

Features

Material:	aluminium, powder coating
Colour:	white, natural metallic, black
Dimensions:	22 x 31 mm
Weight profile:	567 gr/m ¹
Mounting:	wall mounting, (suspended) ceiling mounting, ceiling system mounting, profile installation.

Profile specifications

Aluminium profile:

Kleuren met RAL-code en lengtes (m):

	RAL	4	5	6	7
white	9010	●		●	●
naturel metallic	9006	●		●	●
black	9005			●	

Mounting surface:

- wood
- stone
- concrete

Mounting:

- ceiling mounting
- wall mounting
- extension bracket
- built-in profile with flange (coming soon)

Bending:

bendingradius	bending tool
R 20 cm	1015
R 30 cm	1015
R 40 cm	*
R 50 cm	*
R > 80 cm	1018

* To be bent by Qurails. Other radii available upon request.

Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used on both small and wide channel tracks and, because of a wide assortment of components, it can be used with manually, cord and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, see the Flow product data sheet.

Specification guide

Material

- Aluminium EN AW-6060-T66.
- Akzo Nobel powdered coating in accordance with the Qualicoat standard.

Mounting

Ceiling mounting with fixing clamp 6050:
allow space for tightening the clamp

Ceiling mounting with bracket 6055-1000

Concealed mounting on or in the ceiling with bracket 6055-2000.
For curved rails, use the profile as manufactured to determine the arc.

Wall mounting with bracket 6051

Wall mounting with adjustable extension bracket 6017, can be shortened from 15 to 7 cm.

Wall mounting with 6015

6200 without head with 4010:

Example of curtain fabric:

With the fabric, make sure there is enough space between the curtain and the ceiling or between the curtain and the track.

6200 with 6010 glider to allow upstand heading:

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the intensity of the use of the system. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.

Load table

Load table G-Motion motor types

maximum curtain weight

motor type e.g. 'GM-4' motor type stands for: all motors with product code starting with GM-4		GM-4	GM-6	Tandem		GM-1	Tandem
